

## **SURVEY CONDUCTED BY THE NSS IN NEARBY VILLAGES**

As a part of its community outreach initiatives, the NSS contingent of IIITDM Kurnool has conducted a survey in the nearby villages to the IIIT campus. It is a general survey in which the surveyed were asked about their age, number of members in the family, gender, no. of members in the family doing higher studies, their level of education, their language details and their awareness regarding the presence of the Institute.

The survey has given a rough idea about the level of literacy and awareness of the villagers around the Institute.
